Hydrobiologia

The International Journal of Aquatic Sciences

Volume 545, 15 August 2005

Primary Research Paper

Positive and negative effects of riverine input on the estuarine green alga *Ulva intestinalis* (syn. *Enteromorpha intestinalis*) (Linneaus)
K.M. McAvoy, J.L. Klug 1–9

Limnology of 46 lakes and ponds on Banks Island, N.W.T., Canadian Arctic Archipelago
D.S.S. Lim, M.S.V. Douglas, J.P. Smol 11–32

Leaf-litter application to a sandy soil modifies phosphorus leaching over the wet season of southwestern Australia
S. Qiu, A. McComb, R. Bell, J. Davis 33–43

Factors affecting the distribution and abundance of the commensal *Temnocephala iheringi* (Platyhelminthes: Temnocephalidae) among the southernmost populations of the apple snail *Pomacea canaliculata* (Mollusca: Ampullariidae)
P.R. Martín, A.L. Estebenet, S. Burela 45–53

Flow permanence and macroinvertebrate community diversity within groundwater dominated headwater streams and springs
P.J. Wood, J. Gunn, H. Smith, A. Abas-Kutty 55–64

Assortative pairing in the amphipod *Paracalliope fluviatilis*: a role for parasites?
F. Lefebvre, B. Fredensborg, A. Armstrong, E. Hansen, R. Poulin 65–73

Responses of the fish community to the flood pulse and siltation in a floodplain lake of the Trombetas River, Brazil
D.S. Colmenero Lin, É.P. Caramaschi 75–91

The effects of predation and unionid burrowing on bivalve communities in a Laurentian Great Lake coastal wetland
R. Bowers, J.C. Sudomir, M.W. Kershner, F.A. de Szalay 93–102

Comparison of several techniques for sampling macroinvertebrates in different habitats of a North Iberian pond
F. García-Criado, C. Trigal 103–115

Quantitative analysis of freshwater ostracode assemblages in southwestern Yukon Territory, Canada
J. Bunbury, K. Gajewski 117–128

Effects of hot ground water on a small swamp-stream in Nova Scotia, Canada
B.R. Taylor, A.N. Dykstra 129–144

Dried-up zone as a temporal stock of chironomid larvae: survival periods and density in a reservoir bank
T. Suemoto, K. Kawai, H. Imabayashi 145–152

Potential Effects of Elevated Sea-Water Temperature on Pelagic Food Webs
U. Müren, J. Berglund, K. Samuelsson, A. Andersson 153–166

Effects of different macrophyte growth forms on sediment and P resuspension in a shallow lake
J. Horppila, L. Nurminen 167–175

Phytoplankton and zooplankton as indicators of water quality in Discovery Bay, Jamaica
M. Webber, E. Edwards-Myers, C. Campbell, D. Webber 177–193

Composition and distribution of zooplankton across an upwelling front on the northern Portuguese coast during summer
H. Queiroga, C. Silva, J.-C. Sorbe, F. Morgado 195–207

Impact of drought upon fish assemblage structure in two South Carolina Piedmont streams
M. Keaton, D. Haney, C.B. Andersen 209–223

Short Research Note

Limitations to measuring riverine denitrification at the whole reach scale: effects of channel geometry, wind velocity, sampling interval, and temperature inputs of N_2-enriched groundwater
A. Laursen, S. Seitzinger 225–236

Primary Research Paper

Bioecology of the fiddler crab *Uca uruguayensis* and the burrowing crab *Chasmagnathus granulatus* (Decapoda, Brachyura) in the Refugio de Vida Silvestre Bahía Samborombón, Argentina
I.I. César, L.C. Armendáriz, R.V. Becerra 237–248

Short Research Note

Refinement and application of a conductiometric standpipe technique for measuring interstitial flow velocity in salmonid spawning gravels
S.M. Greig, P.A. Carling, D.A. Sear, L.J. Whitcombe 249–256

Primary Research Paper

Habitat utilisation by fish community in a short-term regulated river reservoir
T. Vehanen, J. Jurvelius, M. Lahti 257–270

Short Research Note

Biomass-dependent effects of common carp on water quality in shallow ponds
M.M. Chumchal, W.H. Nowlin, R.W. Drenner 271–277

Primary Research Paper

Spatial patchiness of epilithic biofilm caused by refuge-inhabiting high shore gastropods
R. Stafford, M.S. Davies 279–287

Recovery of the macroinvertebrate community below a wastewater treatment plant input in a Mediterranean stream
J.D. Ortiz, E. Martí, M.À. Puig 289–302
